

OCEAN RUNNER

290 / 340 / 420 / 460

More sophisticated than the Dynamic range, these four models are true small boats.

They have a flat floor with structural reinforcement in the hull, meaning that optional accessories such as a centre or jockey console can be installed to suit your boating conditions. There's even an integrated bow locker on the deck on the 3.4-metre and larger models.

Available in PVC and CR/CSM (Hypalon™), the Ocean Runner comes in light grey, white or red depending on the model.
